ANNOUNCEMENT BY LOMA NEGRA

In connection with the article published in today's edition of the Argentine newspaper *Ambito Financiero* entitled *A very serious accusation against Loma Negra* the Company states that:

- the Company is in no way involved, either directly or indirectly, in any corruption case mentioned in the article, including in the so called 'causa de los cuadernos,' or in any other investigation involving similar facts.
- Loma Negra is the major cement producer in the country that – within its activities – provides cement and concrete to private companies that execute public work agreements, having with these companies only a commercial relationship.
